

# MEMBERSUPPORT

SALES • SERVICES • SUPPORT • SOLUTIONS

The StoreFront website is a one stop shop for AWG information, data, and tools. One of the most exciting features is called MyAisle. This is a completely personalized area for content that allows you to decide what is the most important and valuable content. Storefront was designed with an easy to use navigation menu, intelligent searching to find content, user-defined notifications to reduce noise, role-based access and fully mobile enabled. All these features are designed to make the process more efficient, saving time which always equals money.

## The simplified navigation is on the left side of the page and includes:

- Product Information
- Deals
- Merchandising
- Pricing
- News
- Financial
- Orders
- Delivery
- Services

Content is also categorized with filtering and sorting options that make it easier to find and read posted articles. This mean you can read the content on the page without needing to download it.

## Some of the other notable features include:

- Self Service to Manager user Profiles
- Food Safety Alerts
- Meat Cut Test
- Online Ordering
- Order Confirmation with Details and Summary
- Truck Delivery Information

*Each StoreFront user will have their own user account and the ability to reset their own password from the self-service page.*
